

Keep a closer eye on how much energy you're using

Confused by Smart Meters? your local Age UK can help you understand how they work and the options available for you.

Call us on 0300 30 20 100 for more information

It's always been important to keep an eye on energy use. But with energy prices rising, it's more important now than ever.

Smart meters and the in-home display can help. They mean you can see how much energy you're using and how much you're spending.

So you can decide when to turn on, turn up, or turn off.

Ask your energy supplier for a smart meter or search 'get a smart meter' today.

Some homes can't get a smart meter yet. Your energy supplier can tell you if you can have one and how soon it can be installed.
